**C#m**    **A**                    **E**  
Fear will never bind me again  
                                 **B/D#**

I'm with You

**C#m**                    **A**  
Just when all seemed lost  
                                 **E**                    **B/D#**

I saw the cross

CHORUS:

**C#m----A----E-----B/D#**  
It was holding my hero  
                                 **C#m----A----E----B/D#**  
holding my hero

**F#m**    **E/G#**  
I won't listen when they say,

**A-----B**  
"There isn't a way!"

**C#m**  
'Cuz I saw my hero

The lies will never taunt me again  
I'm with You  
All of the things that I run from are gone  
I'm with You  
Just when life seemed to fade  
I saw the empty grave

CHORUS 2 :            And there stood my hero  
                                 There stood my hero  
                                 I won't listen when they say,  
                                 "There isn't a way!"  
                                 'Cuz I saw my hero
